

Breast Ultrasound University

A practical approach to breast ultrasound imaging and breast elastography

Philips Ultrasound
University General
Imaging / Women's
Healthcare 307

In today's competitive and dynamic healthcare climate, it is critical to use your medical imaging systems to their fullest potential. Our goal at Philips Healthcare is to provide the clinical education you need to make the most of your equipment investment.

Course Description

The Breast Ultrasound University is a one-day, physician-led course that will provide a comprehensive overview of the practical applications, techniques and interpretation of breast ultrasound, including breast elastography.

The speaker for this course is Richard G. Barr, MD, PhD who is a radiologist with Radiology Consultants, Inc., Southwoods X-ray and Open MRI, located in Youngstown, Ohio. He is also Professor of Radiology at Northeastern Ohio Universities College of Medicine and Pharmacy. Dr. Barr has published numerous articles and provides various lectures worldwide

regarding breast imaging and diagnosis and the use of elastography.

Locations

Will be held in Philips central locations in Alpharetta, Georgia; Bothell, Washington; and Cleveland, Ohio.

Prerequisites

A basic knowledge of 2D Ultrasound imaging fundamentals and breast anatomy is required for this program.

PHILIPS

Breast Ultrasound (GI-WHC307)

“Ultrasound of the breast is playing an ever-increasing role in the detection and characterization of breast pathology. Technique is critical to improve detection rates and characterization of lesions while decreasing the need for breast biopsy.”

Richard Barr, MD, PhD

Richard Barr, MD, PhD

Course Objectives

Upon successful completion of this program, you should be able to:

- Explain abnormal findings associated with breast imaging
- Discuss current technologies utilized in breast imaging
- Explain and discuss elastography concepts
- Discuss the role of elastography in breast imaging

Faculty

- Richard Barr, MD, PhD
- Philips Clinical Education Specialists
