

HD11 XE Advanced Customer Training

Philips Ultrasound Advanced Customer Training HD 200 Series

In today's competitive and dynamic healthcare climate, it is critical to use your medical imaging systems to their fullest potential. Our goal at Philips Healthcare is to provide the clinical education you need to make the most of your equipment investment.

Course Description

Advanced Customer Training (ACT) courses are designed to educate customers on the leading-edge technologies specific to each system and application. Following your on site installation training, the intensive ACT serves to expand and deepen your knowledge.

Prerequisite

Attendees should have completed their on site installation training.

Locations

Will be held in Philips central locations in Alpharetta, Georgia; Bothell, Washington; and Cleveland, Ohio.

PHILIPS

HD11 XE Advanced Customer Training (HD 200)

General Imaging

Course Objectives

Advanced Customer Training (ACT) consists of a one-day course of advanced and intensive training on the HD11 XE ultrasound system.

Upon completion of the course, the attendee should be able to:

- Apply advanced system optimization techniques
- Define volume imaging and the associated clinical benefits
- Explain and discuss the acquisition of freehand 3D volumes
- Explain and discuss the acquisition of automated 3D/4D volumes
- Define Multiplanar Reformatted Views (MPRs)
- Describe the data manipulation of a 3D volume
- Explain and discuss the basics of STIC in the evaluation of the fetal heart
