In today’s competitive and dynamic healthcare climate, it is critical to use your medical imaging systems to their fullest potential. Our goal at Philips Healthcare is to provide the clinical education you need.

The field of diagnostic sonography is challenged by constant change in both technological developments and clinical advances. This one day, physician-led course will present the most recent information about advances in the field of Gynecological sonography. Content will focus on advancing clinical skills and provide the learner a comprehensive overview of the clinical applications of Gynecological sonography.

The course will be presented and facilitated by a panel of three physicians.

**Rochelle F. Andreotti, MD**
Professor of Clinical Radiology and Radiological Sciences
Professor of Obstetrics and Gynecology
Vanderbilt University School of Medicine

**Arthur C. Fleischer, MD**
Professor of Radiology and Radiological Sciences
Professor Obstetrics and Gynecology
Vanderbilt University School of Medicine

**Glynis A. Sacks, MD**
Professor of Clinical Radiology and Radiological Sciences
Associate Professor of Obstetrics and Gynecology
Vanderbilt University School of Medicine

**Audience Statement**
This course is for physicians and sonographers interested in expanding their knowledge on the advances of Gynecological sonography.
Advances in Gynecological Sonography

Course Objectives
